Question: Additional comments
I would recommend Dr. Lukowski to any student. She is extremely helpful and fair as a teacher.
The class requires a lot of work but Dr. Lukowski is extremely helpful and does a great job of showing how you will use these skills in the real world.
Great teacher, very enthusiastic. Goes out of her way to help and encourages us to ask her questions.

Question: Additional comments
It has been a very enjoyable time in Dr. Lukowski's class and I have learned a lot to develop my skills for my future career plans. She is very knowledgeable about what we should expect when we enter the business world.
I wish all my English Prof. were like Dr. L. She actually made the subject interesting and fun and very relevant to my major.

Question: Improving methods for evaluating students
Resumes shouldn't be an assignment because it is being graded unfairly for those who doesn't have any experience.
Question: Additional comments
She is a great professor and she knows the material.
I don't have enough good things to say about Dr. Lukowski. I have always loved my English classes, especially at CBU, but her class has been my favorite so far. I have learned so much that will really help me in the business world. She has challenged me, encouraged me, and showed me that she truly cared about my success in her class. She was very easy to talk to, I know, because I visited her office hours frequently! I have and will continue to recommend her to my friends!
This is my favorite class! Although one has put in a lot of work, this class is the most practical class. I will use everything that I learned in this class in the future.
Scariest teacher the first day we met, but has taught me so many things this year that I will carry throughout my career.

Question: Additional comments
Very repetitive. This should be a general education class especially for Business majors. I learned most of this my sophomore year
She's a tough cookie, but it's all in our best interest. She really challenges her students to work hard and pushes us to do our best. Everything taught in this class is relevant to our future.
I would recommend this professor to any student who asked me about her. She constantly challenges but is always there to help if you need help for school work or anything else. I can honestly say she is my favorite professor and wish i could take her more often.
great course, very helpful for the future and real world experiences, wonderful professor. I would recommend Dr. Lukowski and this course to my peers.
Dr Alison truly is awesome and cares and expect a lot from her students. She is always there to answer questions and she brings real world issues inside the classroom. Thanks to her, I'm ready to go out and get a job for I know all the steps it takes to do so.
She uses real-life experiences to teach about a subject that she knows very well. This is by far my favorite English class I have taken at CBU so far. Only drawback I can think of is we only used the book like twice this year.
Great professor, really connects well with students. Would gladly take any class she taught and recommend others to do the same.
Although some might think the teacher is strict, I feel that it helps the students do better in the course.
My favorite teacher at CBU, she was very thorough at explaining all our assignments. She encourages students to come to her if they need any help, communication with students is very important to her. I feel like her class prepared me very well to communicate in the corporate world.
Professor Lukowski makes class engaging and fun. She knows her subject very well and teaches in an excellent manner. She is always there to help those who want to be helped.

Question: Additional comments
I would recommend Dr. Lukowski to everyone! She is a really wonderful teacher!
Dr. Lukowski hands down is one of the best professors I've ever had while attending CBU. She takes the time to get to know the class strengths and weaknesses and assign work that makes us think. I encourage any student to take her class because it will help them throughout there professional career and she gives invaluable advice.
Love this teacher! Personal, helpful, and relatable
LOVED Dr. Lukowski. Didnt think that Business communications could be interesting but I have loved every class. It isn't an easy course, but she is the best professor I have had thus far.

Question: Additional comments	
this class was a complete joke. why doesn't a business professor teach this class? most of the things we learned were completely opposite from what other business teachers expect. what a waste of time.	
I sincerely enjoyed having Dr. Lukowski this semester. Not only are her assignments extremely helpful to students who will be searching for jobs and internships, but her lectures are also engaging, informative, and entertaining. She's mastered the art of teaching students valuable skills for the real-world while keeping things interesting and fun. Her rsum writing workshop was AMAZING. I never knew that employers searched for key words on your resume and cover letter when reviewing them. I never knew how to even write a cover letter until her class and, graduating this May, I really that's something that will help students in the future when searching for jobs and internship positions. She knows what she is talking about, and the resume and cover letter lectures are absolutely necessary. That was by far the most helpful part of the semester for me, and it encouraged me to apply for more jobs because I actually felt confident about my resume and cover letter afterward.	
Dr. Lukowski is honestly one of my favorite professors at CBU. This class was so useful - I was surprised by how much I learned and felt like this class exceeded what I expected from it.	
Does really well to make the class relevant to real life situations	
I have truly enjoyed taking this class. Dr Lukowski has challenged me in a way that I strive to impress her, but she has never failed to help steer me in the right direction.	
One of my favorite classes I have taken so far. It is a course where the content will actually be used post graduation instead of the standard PowerPoint and lecture for and hour about pointless information because they have tenure style courses I have taken all through CBU.	
All assignments relate to the real world extremely well!	
The class is hard and I was nervous completing every assignment. Dr. Lukowski is awesome though and teaches a great class.	
Even with the initial doubt on her strong character, I cannot recommend this professor enough. She knows what she's talking about, and is extremely helpful in helping you produce quality work. She's also funny, so that's a plus.	
This class has taught me all the things adults going into business need to know. To anyone that says this class is irrelevant is kidding themselves. I honestly can say that I know how to properly type an email, know how to capture the attention of my target audience and am more open to feedback in anything I do. I truly feel like some of the CBU community that send out emails to the entire campus might benefit from taking this course.	
I am already using things I learned in this class in the real world. It is important, and I personally think every major should have to take something similar to it.	
Question: Improving methods for evaluating students	
feedback was given long after the assignment had been turned in and never discussed in a way that was helpful at all	

There were: 12 possible respondents.

Question: Additional comments
This whole entire class is set up horribly. It seems that she uses the same format each year but forgot the change a few due dates when you try to look ahead. Nothing is straight forward and the final project is a cluster for the stuff you have to turn in. Extremely confusing and causes many headaches.
I don't think this class is an appropriate class for an online course. The instructor also doesn't care to explain things properly to this course.
This is an online course for me so I lack understanding of the communications aspect of this course. I feel as though I have not learned much besides what I have researched on my own. The instructor is hard to reach and is not quick to respond to emails. The wrong due dates for assignments are posted pretty often and it is misleading. Instructions for assignments are unclear. Most of my assignments have not been graded from early in the semester. This course should not be offered online.
Question: Suggestions for clear subject presentation
This course should strictly stick to in class only rather than online. The communications aspect is lacking tremendously. Also, materials are not explained well. Directions for assignments are often unclear and hard to understand. The exact description of the correct method of completing assignments should be explained.
The whole entire setup is bad and confusing.
Question: Improving methods for evaluating students
Give appropriate guidelines for assignments not just brief sentences.
Question: How was instructor not available
She does not respond to emails in a timely manner. She is often not in her office.
Question: Instructor provide better feedback
Provides some feedback, but nothing to improve my work, just comments on it.
